

Disable Comments

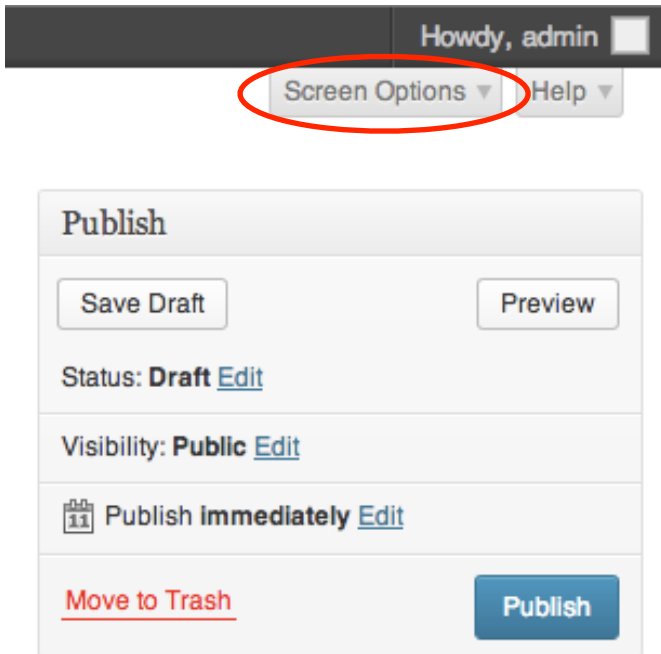

- Go to Settings -> Discussion
- Uncheck the Option "Allow people to post comments on new Articles"

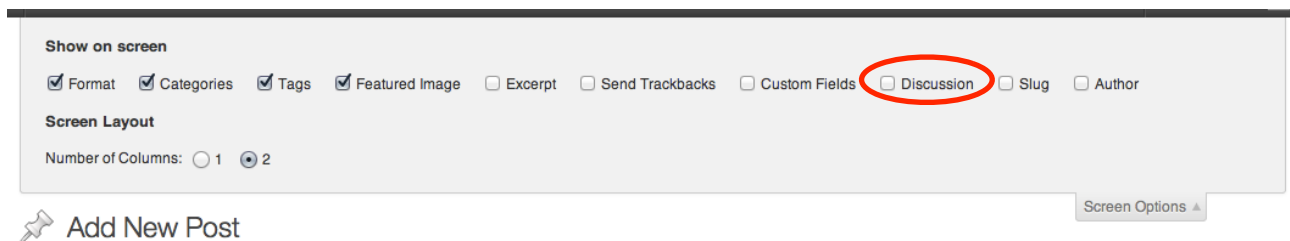

- Create a new Post or a new Page. From now on, every new created Post or Page has no comments. But this is not for old, already created Pages and Posts

Remove Comments from already created Pages and Post

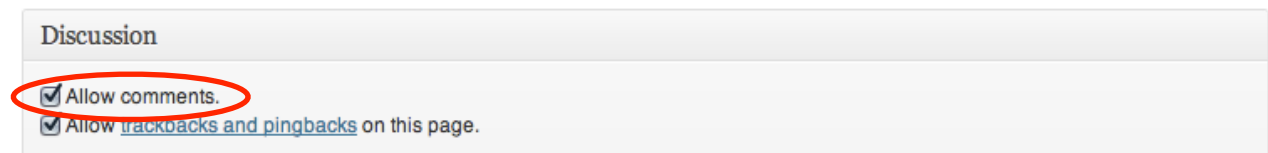

- Open an already created Post or Comment
- Click on “Screen Options” on top of you screen while editing a Post or Page

- Now, a new menu appears
- Check the option “Discussion”

- Below the editor, new options are available

- Save the Post or Comment
